CAREER OBJECTIVE

I am a front-end developer proficient in JavaScript. Skilled in transforming design concepts into user-friendly interfaces. Collaborative team player, working closely with designers. Strong problem-solving and debugging abilities, optimizing performance for smooth user interactions. Up-to-date with latest trends and emerging technologies, continually enhancing skills to deliver innovative solutions.

EXPERIENCE

Shikhbe Shobai - As an Intern Support Mentor in Web Developer 🔗   Oct 2023 - March 2024
Collaborating with experienced Front-End developers to solve practical problems on various project.

SKILLS

Technical Skills: Web Developer **(Front End)**
Programming languages: JavaScript (Es6)
Frameworks: React, Next-Js
Database: MySQL
Design: CSS, Tailwind-CSS
Tools & IDEs: Vs-Code, Git, GitHub
Languages: Conversational Proficiency in English, Hindi, Bangla

PROJECTS

News-Wave 🔗

I orchestrated a React-Firebase project featuring integrated login systems, augmenting security measures and user accessibility. This innovative integration seamlessly merges the project's robust security framework with the convenience of users' existing Google and GitHub credentials, enhancing both usability and protection.

Donation- Campaign 🔗

Developed a React web app using ES6 and Tailwind CSS, featuring Home and Statistics pages. The Statistics page visualizes donation data from JSON files with interactive Chart.js pie charts, showing donation distributions across causes. The user-friendly interface ensures easy navigation and understanding. This project highlights my skills in React, JavaScript, data visualization, and responsive design. Applicant data is securely stored within the Project.

Career-Hub 🔗

I developed a comprehensive job application system. Through this project, users can explore various job listings, delve into detailed job descriptions, and seamlessly apply for positions. The project features five key sections: Home, Jobs, Applied Jobs, and Statistics. Notably, applicant data is securely stored within the project, optimizing the application process.

E-School 🔗

Contributed significantly to the website of E-School, a client prototype. Awaiting client approval to proceed further with the project. Demonstrated proficiency in front-end development and collaboration.

Samar 🔗

Led front-end development for the Samar project, creating a client-side prototype. Made significant contributions to design and functionality, ensuring seamless user experience. Implemented innovative features and user interfaces, showcasing proficiency in front-end development and design principles.

EDUCATION

Green university of Bangladesh	Mirpur, Dhaka
Bachelor of Science in Computer Science and Engineering	Jan 2020 - Feb 2024
Narail Govt. Victoria College, Narail	Narail Sadar, Narail
Higher Secondary School Certificate (HSC)	July 2016 - July 2018
Narail Govt High School, Narail	Narail Sadar, Narail
Secondary Secondary School Certificate (SSC)	Jan 2014 - May 2016

PROFESSIONAL TRAINING

Complete Web Development Course with Jhankar Mahbub (Programming Hero - Batch 8)
Research

Empowering Citizens: A Transparent and Accessible Blockchain Smart Contract-based Government Budget Management System.
